

## MINI-CAT UNIVERSAL LABEL REWINDERS

MC-10 Standard

MC-11 Adjustable  
Core Holder

The LABELMATE MC-10 is a low-cost Universal Label Rewinder capable of rewinding any width labels up to 12 cm wide at speeds of up to 15 cm/sec Label roll o.d.s of up to 20 cm can be accommodated. MC-10 on shaft rewind (no core required), or 76 mm core holder. MC-11 adjustable core holder 25 to 101 cm.

The MC-10 uses LABELMATE's proprietary Constant Adjustable Torque™ ("CAT") technology to achieve impressive, reliable performance at an unprecedented low price. A special motor, designed specifically for the MC-10, offers bi-directional operation and years of trouble-free performance. A switch conveniently controls the amount of rewind torque. No awkward tensioning arms or troublesome belts or clutches are used and no speed adjustments are required. The MC-10 automatically adjusts itself to any printer speed up to 15 cm/sec and automatically allows for back feeding labels if your printer requires it.

For short to medium runs, labels can be conveniently wound directly on the MC-10, eliminating the need for cardboard rewind cores. On the other hand, if you wish to use rewind cores you can use the MC-10 76mm core holder or the MC-11 adjustable core holder (25 to 101 cm). The standard MC-10 is supplied with a single inner label flange to keep the edge of the labels aligned as they are being rewound. Also available is an optional Adjustable Paper Guide that guides the outer edge of the labels at the same time. A second flange is available for the MC-10 as an option.

Rugged, heavy-duty construction allows the MC-10 to be simply set in place near the exit path of the label printer. Special anti-slip base material prevents the unit from moving. Put the MC-10 to work for you today and enjoy a new dimension in label rewinding convenience and reliability.

### Specifications :

- ◆ **Label Width :** Up to 12 cm Maximum roll weight : 4 kg.
- ◆ **Rewind Label Roll Size:** Up to 20 cm MC-10 convenient coreless rewinding and 76 mm core holder. MC-11 Adjustable Core Holder 25 to 101 mm.
- ◆ **Speed:** MC-10 automatically adjusts to any printer speed up to 15+ cm/sec. No speed adjustments are required. Torque is switch adjustable.
- ◆ **Direction:** Bi-directional. Direction is switch selectable.
- ◆ **Power :** Convenient ON-OFF switch. 220vac 50Hz. 10 va. CE/ UL Listed Power Supply.
- ◆ **Options:** MC-10-APG Adjustable Paper Guide. Second flange for the MC-10.
- ◆ **Warranty :** Limited 3 year warranty against defects in Workmanship and Materials.
